

Organic

GC AminoForce Liquid

Free amino acids with nano encapsulation technology

GC AminoForce Liquid is a powerful package of free L-amino acids and carbon substances designed to stimulate soil biological activity and crops.

Key Product Attributes

Liquid concentrate consisting of free L-amino acids derived from hydrolysed proteins, formulated with active substances rich in organic carbon.

Organic certified for use through soil and foliar application.

Boosts soil biological activity to enhance key soil functions related to nutrient uptake.

Analysis

Free Amino Acids	6% w/w	7.5% w/v
Total Nitrogen (N)	2% w/w	2.5% w/v
Organic Nitrogen (N)	2% w/w	2.5% w/v
pH	6.5	
Colour	Brown	
Aminogram: Ala, Arg, Asp, Cys, Gly, Glu, Hyp, His, Iso, Leu, Lys, Met, Phe, Pro, Ser, Tyr, Thr, Val		

Main Use

Enhances the resistance of crops to abiotic and biotic stresses during the vegetative stage (frost, heat, drought, etc).

Stimulates early root and canopy development in new and established crops, especially under stressful growing conditions.

Application Rates

Crop	Rate for foliar application Apply from vegetative stage to up to flowering	Rate for soil application
Vegetables and ornamentals	200 - 400 ml/100 litres of water (2 - 4 L/ha)	10 - 15 kg/ha
Blueberry, Strawberry and Raspberry	200 - 400 ml/100 litres of water (2 - 4 L/ha)	10 - 15 kg/ha
Fruit trees (except plums) and citrus	200 - 400 ml/100 litres of water (2 - 4 L/ha)	10 - 15 kg/ha
Olives and vines	200 - 400 ml/100 litres of water (2 - 4 L/ha)	10 - 15 kg/ha
Industrial crops	200 - 400 ml/100 litres of water (2 - 4 L/ha)	10 - 15 kg/ha

Use 50% of the recommended rate when mixing with herbicide. Do not apply to the edible parts of the crop.
