

GC Leaf High K

10-5-30 + 2MgO + 5.5% amino acids + TE

GC Leaf High K is a complete water-soluble fertiliser to support fruit growth. Designed with amino acids to boost crop response to stress and improve plant performance.

Key Product Attributes

Formulated with high potassium, EDTA-micro elements and ideal levels of free amino acids to improve the plant's response to situations of drought and thermal stress.

Main Use

Designed to provide potassium in balance with all nutrients during the fruit development growth stage of crops.

Increases sugar (Brix) in fruits and root tubers, to secure colour, flavour and consistent size.

Application Rates

Apply to all crops as foliar spray at 250 to 400 gr / 100 litres of water or at 2.5 to 4 kg/ Ha every week during the fruiting and root bulking growth stage or as required by the crop.

Analysis (w/w)

Free amino acids	5.5%
Total nitrogen (N)	10%
Nitric Nitrogen (N)	7%
Ammoniacal Nitrogen (N)	2.5%
Organic Nitrogen (N)	0.5%
Phosphorus pentoxide (P ₂ O ₅) soluble in water	5%
Potassium oxide (K ₂ O) soluble in water	30%
Magnesium oxide (MgO) soluble in water	2%
Boron (B) soluble in water	0.03%
Copper (Cu) chelated by EDTA	0.03%
Iron (Fe) chelated by EDTA	0.1%
Manganese (Mn) chelated by EDTA	0.075%
Molybdenum (Mo) soluble in water	0.005%
Zinc (Zn) chelated by EDTA	0.1%
pH stability interval of the chelated fraction	4 - 8
pH	5
